

COMP2044 HCI Coursework 2

Group (insert group number and name here)

Name 1, Student ID 1

Name 2, Student ID 2

Name 3, Student ID 3

Name 4, Student ID 4

Name 5, Student ID 5

Name 6, Student ID 6

1. Introduction

[Briefly introduce the purpose of the prototype, i.e. what was the initial design brief for which the prototypes were designed? Set out the aims of the research for this coursework. Delete this.]

2. Methodology

[Describe the methods you have used (cognitive walkthrough, cooperative evaluation, SUS). This should include the users used (background, number of users, etc.) and a description of the task(s) used. Do not present your results here. Delete this]

3. Results

[You should state here what prototype was chosen for further evaluation and why. This justification should come from the results of the Cognitive Walkthroughs and you can present the **key results** from the Cognitive Walkthroughs in this section. You should also present the results of your Cooperative Evaluation and SUS here. Delete this.]

4. Discussion

[Present your key findings from the Cooperative Evaluation and SUS here and discuss with respect to your recommendations for improving the design and with respect to relevant design literature.

Delete this.]

5. References

[For any references you have given, please use the APA-7 style. Delete this.]

Appendix

[Include any additional documentation here. This could include participant's consent forms if you wish.]
